[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading fails to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8<sup>th</sup> of June 1786." Please call errors or omissions to my attention.]

State of Kentucky Shelby County: SS Personally appeared before me the subscriber a Justice of the Peace in and for said County Doctor John Knight who being duly sworn saith that he is now in his seventy sixth year that he enlisted a soldier in the fall of the year 1776 in the 13<sup>th</sup> Virginia Regiment on Continental establishment commanded at that time by Colonel William Crawford and was shortly afterwards appointed a Sergeant in said Regiment that about the year 1778 the said Regiment changed numerically and numbered the ninth that about the same time he the said deponent was appointed a surgeon's mate in said Regiment by Doctor McKinzie principal surgeon of the West (to wit) Pittsburgh & the Western Counties of Virginia where said Regiment remained after their return from Valley Forge in the spring of 1778 until the close of the war, he says that he remained with the said Regiment which again before the war was ended change from the ninth to the seventh Regiment and performed the duties of surgeon's mate and from July 1782 until the close of the war performed those of surgeon to the Regiment – when he was discharged or dismissed by Colonel John Gibson who then commanded the Regiment upon the arrival of Major Wm Craghn [probably William Croghan]<sup>1</sup> with orders to that effect. He says that he never at any time had a commission from Congress although he drew the pay and subsistence of an officer of his rank, that he had a certificate from general Irvine of the Pennsylvania line also one from his Colonel John Gibson – that in the year 1785 or 6 he applied at Richmond for his commutation certificates which he was told that he was too late that the papers & awards [?] had all been sent to New York where Congress at that time held their Sessions. That sometime afterwards he sent his Certificates on to Congress by Richard Henry Lee who informed him that nothing could be got for him that it was admitted to be an extremely hard case but that if the door was again opened it would be uncertain where it would end. Thus has he never at any time received his commutation. Those certificates which he gave to Mr. Lee he has never again received. Some few years ago he obtained a new certificate from Colonel John Gibson who was then living and sent all to Washington City by a member of Congress of this State but was afterwards informed that nothing could be obtained for him and he has not again received this last Certificate and expects it is now at Washington – he says that he received many years ago a warrant from Virginia for the quantity of land for 6 years service and at a more recent period a warrant for 444 acres additional Quantity being the amount of one years proportion making 7 years in all and he believes that the voucher on file on which this last warrant was issued will be found on file in the proper office at Richmond which will show the commencement and the

termination of his services. Also he says that he drew warrant No. 238 of the New Series for 300 acres from the United States and presumes also that the voucher on file at the war office in the section of Bounty lands on which this last warrant was issued will show his rank and the period of his services, lastly he says that this declaration is made for the purpose of obtaining the benefits of the Act of Congress of the last Session or the relief of certain officers and soldiers of the Army of the Revolution approved on 15<sup>th</sup> Me 1828.

Sworn & subscribed before me this 23<sup>rd</sup> of July 1828.
